Cal EOC Incident – 2014 Drought

- SOC / Inland REOC remains activated in support of 2014 Drought

Weather of Concern

- A cold and dry air mass will settle over portions of Southern California this week, will bring sub-freezing temperatures to interior areas again early Friday morning. The coldest area will be the Antelope Valley, Los Angeles County, where several hours of temperatures between 27 to 32 degrees were expected this morning. The interior valleys of San Luis Obispo, Santa Barbara and Ventura Counties will likely experienced temperatures close to but slightly above freezing.

Active Weather Warnings, Watches and Advisories by County:

http://www.wrh.noaa.gov/sto/brief/wwa_bc_cal.php

Key Points

11/5 – 11/11

Thursday-Friday

- Dry, except for a slight chance of showers northern CA (mainly mountains) and Sierra Nevada.

Saturday-Sunday

- Light rain on Saturday (northwest CA).
- Additional rain and mountain snow possible on Sunday (mainly northern CA).

Monday-Wednesday

- Colder with showers possible (mostly northern-central CA); lowering snow levels. Localized mud and debris flows are possible near burn scars.

	Slight Threat
	No Discernible Threat

Days 1-3 Precipitation Forecast

Precipitation (inches)

Thursday

Friday

Saturday

Little to no precipitation through Friday. A frontal system will bring light-moderate rain to northwest CA on Saturday.

WEATHER

WEATHER SYNOPSIS BY REGION:

NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:

Eureka Weather:

Temperatures will become more seasonal over the next few days as ridging slides over the Pacific Northwest. A cold storm system will then impact Northern California bringing rain Saturday night through early next week. Snow levels will fall as the system moves overhead Sunday into Monday.

Medford Weather:

The upper level ridge will transition east ahead of the next system. Precipitation from this system will reach the coast around mid-morning.

Reno Weather:

Drier weather along with a slight warming trend is forecast for today into Saturday. Another cold winter storm system will impact the area Sunday through Tuesday with breezy conditions, rain and snow.

San Francisco Weather:

The coolest morning so far this fall can be expected today and frost advisories are up for portions of the North Bay Monterey and San Benito Counties. After a chilly start Thursday expect another sunny and mild afternoon. No big changes Friday and Saturday with dry and seasonably mild weather. Chance of North Bay showers by Sunday with better chance of rain Sunday night into Monday as next cold front arrives.

WEATHER

WEATHER SYNOPSIS BY REGION:

CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY:

Sacramento Weather:

Cloudy and cool today. Fair skies and warming to near normal Friday and Saturday. Rain and cooler than normal again Sunday and Monday then mainly dry and cool the remainder of next week.

Hanford Weather:

Mostly clear skies and a slight warming trend for the remainder of the week as weak high pressure remains over the area. Rain and mountain snow possible by Sunday night and Monday as another weather system moves through.

SOUTHERN CALIFORNIA:

Los Angeles Weather:

Weak offshore flow will develop today and continue through Saturday. Dry conditions are expected along with warming temperatures and some north to northeast winds. On Sunday and Monday a low pressure system will move across the state. Cooler temperatures can be expected along with the possibility of some showers on Monday.

Extreme Southwestern California including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:

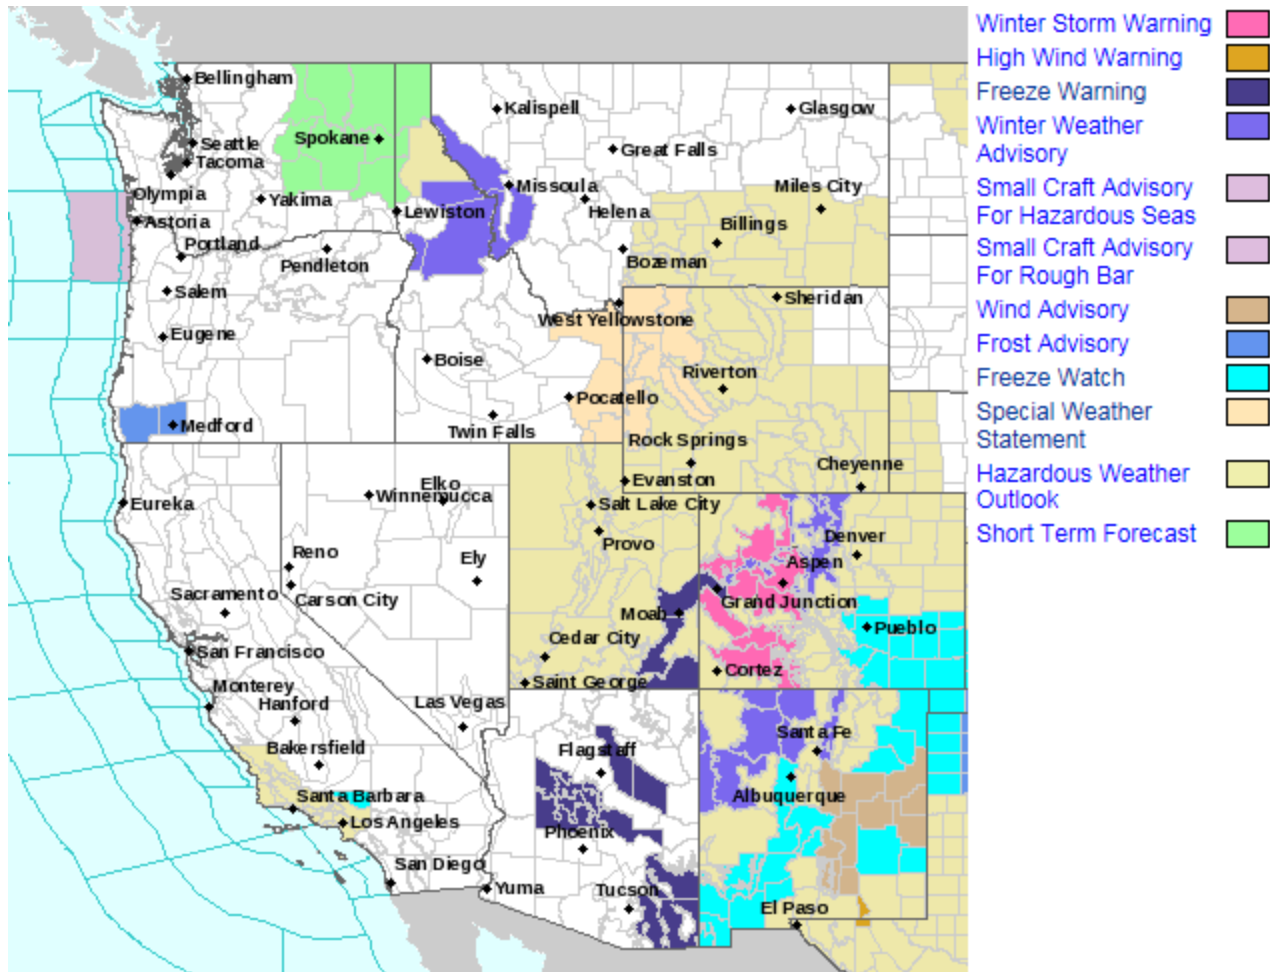

Fair and warmer weather is forecast today through the weekend as high pressure aloft returns. Offshore flow will strengthen Friday and Saturday to produce locally gusty winds in the foothills. Next week a trough of low pressure will move through the area. It will bring much cooler weather strong gusty winds and a small chance of showers Monday and Tuesday.

Southeast California Weather:

Low pressure will exit the region this morning ushering in drier air and continued cooler temperatures. Below normal temperatures will persist through Friday before rising to above normal levels over the weekend and into next Monday. Another low pressure system will move across the area early next week bringing another sharp cooling trend and increased breeziness but little in terms of rainfall.

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

- The SOC is activated in support of the Drought State of Emergency and continue to monitor the situation.
- The Governor issued Executive Order B-26-14 on 09/19/14, to streamline relief efforts for families with drinking water shortages due to drought, specifically through the California Disaster Assistance Act, to provide temporary water supplies to households without water for drinking and/or sanitation purposes.
- The Governor issued Executive Order B-29-15 on 04/01/15 which announced actions that will save water, increase enforcement to prevent wasteful water use, streamline the state's drought response and invest in new technologies to make California more drought resilient.
- CDAA 2014 Drought Fact Sheet and Frequently Asked Questions provided to Regions for reference and distribution.
- Cal OES Recovery continues to coordinate the Community Impacts Workgroup conference calls. Currently, the calls take place on alternating Wednesdays.
- Cal OES Recovery/Individual Assistance finalized an updated 2015 version of the drought brochure of programs and services for individuals, businesses, farmers, and ranchers. It has been put on the Governor's Drought webpage. State agencies may put the following link to the brochure on their webpage <http://ca.gov/drought/pdf/Drought-Assistance-Brochure-2015.pdf>
- Cal OES Regions (Inland, Coastal, Southern) collective OA drought call is facilitated by the SOC every other Monday at 1100 hours.

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought
